SKILLS AND INTEREST

Programming Languages: Typescript/Javascript, React, Python, Java, C#
Database: Firebase, PostgreSql (Neon and Supebase)
Developer Tools: Git, Github, VSC, Docker, Azure, Google Cloud, JetBrains IDE, Google AI Studio, Postman, n8n
Frameworks: Next.js, Vercel AI, Google ADK, Langchain, FastAPI
Other Skills: Software Development, Cloud Computing, Deployment, AI Integration, Automation, CI/CD, Docs Reading, Debugging

PERSONAL PROJECTS

- Career Insights** | *React, Next.js, TypeScript, Vercel AI SDK, Google Gemini, Supabase, PostgreSQL*
- Engineered a full-stack application to provide users with personalized, AI-driven career guidance, handling all logic within a unified TypeScript codebase.
 - Integrated Google's Gemini model directly through the Vercel AI SDK to generate tailored job recommendations, skills gap analyses, and potential career paths based on user-input professional data.
 - Developed an intuitive, conversational chatbot interface, enabling users to interactively query the AI for real-time career insights and feedback.
- Portfolio** | *React, Typescript, RAG, LangChain.js, CI/CD, Azure, GitHub Actions*
- Deployed a dynamic personal portfolio featuring an integrated AI chatbot agent built with LangChain.js, which uses Retrieval-Augmented Generation (RAG) to accurately answer questions about my skills and experience.
 - Established a complete CI/CD pipeline using GitHub Actions, which automatically runs a TypeScript script to scrape the portfolio, generate embeddings, and update the Azure AI Search vector store, ensuring the chatbot's knowledge base is always current.
- AI Prompt Instructions** | *JavaScript, npm, CLI*
- Developed and published a comprehensive npm package with a command-line interface (CLI) to standardize and version-control AI coding assistant instructions
 - Engineered the tool to automatically generate and manage instruction files, ensuring seamless integration with GitHub Copilot's custom prompt features.

EXPERIENCE

- IT Technical Unit Trainee**
De La Salle University – Dasmariñas | Internship | *July 2024 - September 2024*
- Diagnosed and resolved computer hardware and software issues, ensuring uninterrupted support for students.
 - Assembled and deployed customized PC systems to meet specific performance requirements.

EDUCATION

- | | |
|---|--|
| Philippine Christian University
<i>Information and Communications Technology (ICT)</i> | Dasmariñas City, Cavite
2018 – 2020 |
| <ul style="list-style-type: none">Coursework: Introduction to Java, Introduction to Python, Data Structures and Algorithms, Object-Oriented Programming | |
| Cavite State Universtiy, Silang Campus
<i>Bachelor of Science in Computer Scinece</i> | Silang, Cavite
2021 – Present |
| <ul style="list-style-type: none">Coursework: General Programming, Data Structures and Algorithms, Object-Oriented Programming, Game Development, Software Development, Cybersecurity, Networking.Expected Graduation: September 2025 Candidate for Cum Laude | |

CERTIFICATES

- | | |
|---|------|
| 12th International Conference of Frontiers of Intelligent Computing: Theory and application
(Role: Author / Presenter) | 2024 |
| <ul style="list-style-type: none">Participated as an Author & Presenter of the paper entitled “Impact of Robotics and Automation on the Workforce and Society: A Literature Review” in FICTA-2024, organized by AI and Data Science (AI&DS) Research Group, London Metropolitan University, London, United Kingdom | |
| GitHub Foundations Certification
(Source: Github) | 2025 |
| <ul style="list-style-type: none">Validated core competencies in version control with Git, collaborative development workflows (pull requests, code reviews), and CI/CD pipeline fundamentals using GitHub Actions. | |
